HUDSON BAY 390

Overview

The new 390 is our flagship model and commands an on water presence that is unique. She comes standard with a new generation Volvo D4 300 HP shaft drive electronic diesel and has all the features a family needs for great cruising and weekends away unwinding. Our design philosophy was to connect the indoors and outdoors by creating a one level layout flowing from the helm to the L shaped cockpit lounge and table. The galley is located aft for ease of serving and connecting to the Kenyon electric bbq grill and outdoor entertaining area. The accommodation is well suited to two couples or a couple and two kids in two separate cabin areas. One cabin layout is also available.

A generous bathroom with shower stall serves both cabin areas. The Hudson Bay 390 comes standard with Garmin 12 inch touch screen GPS plotter and fishfinder, chain counter and VHF radio along with a 4kw generator and air conditioning throughout the cabin and saloon.
